Sierra Nevada Adaptive Management Project Update:

A collaborative Integration Team meeting hosted by the Fire and Forest Ecosystem Health Team

May 15, 2014; 10am to 2pm

Wildfire Training Center, 3237 Peacekeeper Way, McClellan, CA

Desired Outcomes:

- To share with stakeholders and facilitate a discussion on the preliminary results for assessing the impact of SPLATs on fire behavior;
- To discuss using vulnerability profiles to quantify forest health;
- To promote shared understanding of the current status of the SNAMP FFEH team and its findings; and
- To give an overview of the FFEH integration metrics for the final report.

WHAT	How	Who	Time
I. Welcome and guidelines	Brief presentation	Susie Kocher	10:00 – 10:10 10 minutes
II. Framework for assessing impact of SPLATs on Fire Behavior	Brief presentation designed to facilitate discussion	Brandon Collins	10:10 -10:40 30 minutes
III. Preliminary results of SPLATs impact for Last Chance	Brief presentation designed to facilitate discussion	Danny Fry	10:40 – 11:20 40 minutes

IV. Using vulnerability profiles to quantify forest health: proof of concept	Brief presentation designed to facilitate discussion	John Battles	11:20-12:00 40 minutes
Working lunch (provided)	Breakout groups/ 1 table on forest health (Battles, Collins) another on fire behavior (Stephens, Fry)	All	12:00 – 12:50 50 minutes
V. Update on Sugar Pine SPLATs assessment	Brief presentation designed to facilitate discussion	Scott Stephens	12:50 -1:20 30 minutes
VI. Overview of metrics from fire/forest models to wildlife and water teams	Brief presentation with Q&A	John Battles	1:20 – 1:40 20 minutes
VIII. Wrap up: next steps and evaluation Recommendations from participants for SNAMP next steps; wrap up and evaluation	Discussion	Susie Kocher	1:40 – 2:00 20 minutes
