

THIS GUY WANTS YOUR SOCKS!

UC Berkeley's Dr. Rick Sweitzer will be onsite on Tuesday April 17th to talk about his Sierra Nevada Adaptive Management Project Fisher Study. Dr. Sweitzer, Principal Investigator for the study, has collected donated socks from all over the country for use as bait holders to attract the rare Pacific Fisher (*Martes pennant*) in the Sierra Nevada area. Motion-activated cameras and radiocollars are used to monitor Fisher populations and the impact of forest thinning on area wildlife.

Join us for a lively and informative talk by Dr. Rick Sweitzer. His research focuses on the applied aspects of wildlife conservation and population ecology of mammals in the Sierra Nevada.

SPECIAL EARTH WEEK EVENT - DR. RICK SWEITZER

TUESDAY APRIL 17, 2012

1:00-2:30pm

B543 Auditorium

Drop off your old (clean) tube socks in the collection box at the door!
