May 23, 2006

Dear Interested Contributor,

Thank you for your interest in the UC Sierra Nevada Adaptive Management Project!

We wanted to send you two important things in preparation for the June 2nd Public Meeting at UC Davis.

- 1) If you would like to join the meeting from a remote location, please read the directions below and register for the access information.
  
- 2) If you would like to comment on the preliminary agenda topics, please read through the draft outline below and reply with comments to this email address.

Thank you again for your interest and support. We will be sending out directions and a final draft of the agenda by the middle of next week.

With respect,

Kim

Kimberly A. Rodrigues, Regional Director  
Division of Agriculture & Natural Resources  
North Coast & Mountain Region  
One Shields Avenue  
Davis, CA 95616  
530-754-8509 (phone)  
530-754-8540 (fax)

**1. Remote Meeting Access.** On June 2nd, we will try a new conference technology called Ready Talk. The webcast and phone conferencing allows interested participants to join the meeting from a remote location. All you need is a phone line and computer connection to the web.

After registering with us, you will receive a web site address and a phone number (along with the access codes) as well as directions on how to join the meeting from 1:00 pm to 4:00 pm PDT, June 2, 2006.

To register for remote access to the meeting, please reply to this email and request the access information. ([pdtise@ucdavis.edu](mailto:pdtise@ucdavis.edu)).

## **2. June 2nd Draft Agenda Topics**

UC Davis – Cabernet Room, located upstairs in the Silo, off Hutchison Dr.

1-4 PM

Purpose: To seek public understanding of the process and results to date relative to the University of California Science Team (UCST) Sierra Nevada Adaptive Management Plan (SNAMP) work plan and seek their feedback on the strengths and weaknesses of the work plan.

I. Brief Summary of Process and Work Plan Development

II. Public Feedback: Questions

- 1) Have we identified the core priority issues of concern to you within this SNAMP?
- 2) As we move towards potential implementation, we are committed to increased, active public outreach – how should this work?
- 3) Strengths of this approach?
- 4) Weaknesses?
- 5) Recommendations for UCST and/or Memorandum of Understanding Agency Partners (MOUPs) to consider?

III. Adaptive Management Discussion
