

Memo: SNAMP will begin summer 2007; Triggers & Threshold Meeting May 3
To: All Interested Parties
From: Kim Rodrigues and the UC Science Team
Date: April 2, 2007

NOTICE TO STAKEHOLDERS

The UCST has confirmed our commitment to begin field work this summer. The state and federal agency partners have worked together to secure sufficient funding to initiate the workplan. We will continue to work together to ensure sufficient support for this integrated project.

Please note that the work to identify triggers and/or thresholds of concern is scheduled for May 3rd from 9:00am to 12pm. The meeting will be held in Davis at the ANR Building, Plum Room. Please check the website at <http://snamp.cnr.berkeley.edu> for further updates and/or contact me directly with any questions or concerns.

As always, the success of this adaptive management effort relies on your input and feedback.

With respect,

Kim Rodrigues and the UC Science Team
